

WisdomTree Announces Second Quarter 2018 Results

July 27, 2018

\$16.7 million net income, or \$14.3 million as adjusted

\$0.10 diluted EPS for the quarter, or \$0.09 as adjusted

Declares \$0.03 quarterly dividend

NEW YORK, July 27, 2018 (GLOBE NEWSWIRE) -- WisdomTree Investments, Inc. (NASDAQ:WETF), an exchange-traded fund ("ETF") and exchange-traded product ("ETP") sponsor and asset manager today reported net income of \$16.7 million or \$0.10 diluted EPS in the second quarter. Adjusted net income (a non-GAAP measure¹) was \$14.3 million¹ or \$0.09 diluted EPS¹. This compares to net income of \$12.1 million or \$0.09 diluted EPS (as adjusted, \$7.8 million¹ or \$0.06 diluted EPS¹) in the second quarter of last year and net income of \$9.4 million or \$0.07 diluted EPS (as adjusted, \$11.3 million¹ or \$0.08 diluted EPS¹) in the first quarter of 2018.

WisdomTree CEO and President Jonathan Steinberg said, "Technology and data investments made over the past several years are driving growing cost efficiencies across our organization and allowing us to better serve our existing clients and prospects, leading the firm towards our next wave of growth. Over the past several months we signed distribution agreements with notable third parties, pointing to the strength of our innovative product suite and differentiated technology and advisor solutions offerings, both in the U.S. and abroad."

Steinberg continued, "The second quarter was a busy quarter for our international operations. Early in the quarter, we completed our acquisition of ETF Securities, transforming our European platform. We have achieved the cost savings we identified ahead of schedule and continue to work towards leveraging the expanded distribution reach and enhanced resources. Additionally, in Canada we continued to generate strong organic growth and further establish ourselves in that growing market. Lastly, we are restructuring our Japan distribution strategy which in addition to reducing our cost base, we believe will drive stronger growth in the region."

Recent Business Developments

Company News

- In June 2018, the Company announced the addition of Chris Gardner, author of "The Pursuit of Happyness," as a Senior Advisor.
- In July 2018, the Company announced that it entered into an ETF Program Agreement with Cetera Financial Group to be the only ETF sponsor with ETFs available through the no-transaction fee platform; Oranj announced that the Company's model portfolios and products are now available on Oranj's free end-to-end wealth management platform; and WisdomTree and AdvisorEngine were selected by a large independent broker-dealer to digitize and optimize their wealth management platform, with WisdomTree providing model portfolios.

U.S. Listed Product News

- In July 2018, the Company announced that it expanded its offering on Schwab ETF OneSource™, a commission-free ETF program, with the addition of the WisdomTree Floating Rate Treasury Fund (USFR) and the WisdomTree Yield Enhanced U.S. Short-Term Aggregate Bond Fund (SHAG).

European Listed Product News

- In May 2018, the Company announced the launch of two new funds. The WisdomTree AT1 CoCo Bond UCITS ETF is the first ETF globally to provide investors with access to the Additional Tier 1 (AT1) Contingent Convertible (CoCo) bond market while the WisdomTree Cboe S&P 500 PutWrite UCITS ETF replicates a strategy that is already successful for the Company in the U.S. Both funds were listed on the London Stock Exchange, Borsa Italiana and Deutsche Börse Xetra.
- In July 2018, the Company announced the launch of two new smart beta fixed income ETFs which seek to provide enhanced yields on core European investment grade bonds and treasuries, without potentially riskier exposures. The WisdomTree EUR Aggregate Bond Enhanced Yield UCITS ETF (WTDP) and the WisdomTree EUR Government Bond Enhanced Yield UCITS ETF (WTDR) are both listed on the Deutsche Börse Xetra and Borsa Italiana; and the Company announced the launch of two smart beta equity ETFs, offering multifactor exposure to U.S. equities and exposure to Japanese small cap equities. The WisdomTree US Multifactor UCITS ETF (USMF) and the WisdomTree Japan SmallCap Dividend UCITS ETF (DFJ) are both listed on the London Stock Exchange.

Canadian Listed Product News

- In May 2018, the Company announced the launch of the Digital Portfolio Developer (DPD), an on-demand tool for Canadian advisors that focuses on providing deep data analytics to evaluate client and prospect portfolios.

Assets Under Management and Net Inflows

U.S. listed ETF assets under management ("AUM") was \$41.3 billion at June 30, 2018, down 3.6% from March 31, 2018 primarily due to net outflows. International listed ETPs' AUM was \$18.6 billion at June 30, 2018, up \$16.6 billion from March 31, 2018 primarily due to the \$17.6 billion of AUM acquired in connection with the completion of our acquisition on April 11, 2018 of the European exchange-traded commodity, currency and short-and-leveraged business ("ETFS") of ETFS Capital Limited ("ETFS Capital," formerly known as ETF Securities Limited) partly offset by market depreciation. We refer to the acquisition throughout this press release as the ETFS Acquisition.

Performance

In evaluating the performance of our U.S. listed equity, fixed income and alternative ETFs against actively managed and index based mutual funds and ETFs, 76.5% of the \$40.7 billion invested in our ETFs and 62.9% (44 of 70) of our ETFs covered by Morningstar outperformed their comparable Morningstar average since inception as of June 30, 2018.

For more information about WisdomTree ETFs including standardized performance, please click [here](#) or visit www.wisdomtree.com.

Second Quarter Financial Discussion

On April 11, 2018, we completed the ETFS Acquisition. Our financial results for the second quarter of 2018 include the recognition of certain items directly associated with the acquisition, including contractual gold payments expense, a gain on revaluation of deferred consideration and interest expense, each of which are described in further detail below.

In addition, the presentation of our Consolidated Statements of Operations has changed to include operating revenues and operating expenses, as well as other income/(expenses) not included in operating income. Prior period amounts previously disclosed within our Consolidated Statements of Operations have been reclassified to conform with our current presentation. These reclassifications had no effect on previously reported net income.

The primary reason for the increase in our revenues, expenses and net income this quarter compared to prior periods is the inclusion of the ETFS Acquisition.

Operating Revenues

Advisory Fees

Advisory fees of \$73.8 million increased 32.1% and 26.2% from the second quarter of 2017 and first quarter of 2018, respectively, due to an increase in our average global AUM. Our average global AUM increased from the second quarter of 2017 primarily due to the \$17.6 billion of AUM acquired in connection with the ETFS Acquisition as well as market appreciation and net inflows into certain of our ETFs. These increases were partly offset by outflows from our two largest U.S. listed ETFs.

Our average global AUM increased from the first quarter of 2018 primarily due to the \$17.6 billion of AUM acquired, partly offset by net outflows from our two largest U.S. listed ETFs and market depreciation.

Our average global advisory fee was 0.48% during the second quarter of 2018.

Other Income

Other income of \$1.0 million increased 158.3% and 122.5% from the second quarter of 2017 and first quarter of 2018, respectively, primarily due to creation/redemption fees earned from the ETFS exchange-traded products.

Margins

Gross margin for our U.S. Business segment was 83.4%¹ in the second quarter of 2018 as compared to 83.7%^{1 2} in the second quarter of 2017 and 83.9%^{1 2} in the first quarter of 2018. Gross margin for our International Business segment was 73.2%¹ in the second quarter of 2018 as compared to 46.2%¹ in the second quarter of 2017 and 40.1%¹ in the first quarter of 2018. Gross margins of the International Business segment for prior quarters were not meaningful as the business was not scaled. The change in gross margin from the prior quarters is due to the ETFS Acquisition.

Operating income margin on a consolidated basis was 19.4% in the second quarter of 2018 (as adjusted 30.0%¹) as compared to 26.7% in the second quarter of 2017 and 22.4% in the first quarter of 2018 (as adjusted 25.9%¹).

Pre-tax margin on a consolidated basis was 29.7% in the second quarter of 2018 as compared to 39.5% in the second quarter of 2017 and 23.6% in the first quarter of 2018.

Operating Expenses

Total operating expenses were \$60.2 million for the second quarter of 2018, up 46.2% and 31.9% from the second quarter of 2017 and the first quarter of 2018, respectively. Operating expenses increased primarily due to the ETFS Acquisition. In addition, included in the second quarter of 2018 and first quarter of 2018 were

acquisition-related costs of \$7.9 million and \$2.1 million, respectively.

- Compensation and benefits expense increased 4.8% from the second quarter of 2017 to \$19.3 million due to the ETFS Acquisition, partly offset by lower accrued incentive compensation in our U.S. Business segment. Compensation and benefits expense increased 2.5% from the first quarter of 2018 due to the ETFS Acquisition, partly offset by lower payroll taxes and benefits expense. Payroll taxes and benefits expense in the first quarter of 2018 are seasonally higher due to bonus payments made during that period. Headcount of our U.S. Business segment was 155, 157 and 166 and our International Business segment was 76, 34 and 46 at June 30, 2018, March 31, 2018 and June 30, 2017, respectively.
- Fund management and administration expense increased 44.6% from the second quarter of 2017 and 34.0% from the first quarter of 2018 to \$14.6 million due to higher average AUM of our International Business segment primarily associated with the ETFS Acquisition. We had 81 U.S. listed ETFs and 445 International listed ETPs at the end of the quarter.
- Marketing and advertising expense was essentially unchanged from the second quarter of 2017. This expense increased 18.2% from the first quarter of 2018 to \$3.8 million due to higher levels of spending globally.
- Sales and business development expense increased 32.9% from the second quarter of 2017 to \$4.5 million primarily due to higher spending on sales related activities globally. This expense increased 18.1% from the first quarter of 2018 primarily due to higher spending in our International Business segment.
- Contractual gold payments expense represents an ongoing obligation of ETFS Capital that we assumed in connection with the ETFS Acquisition. This ongoing obligation requires us to pay 9,500 ounces of gold annually from the advisory fee income we earn for managing physically backed gold ETPs. During the second quarter of 2018, we recognized \$2.7 million of contractual gold payments expense associated with the payment of 2,085 ounces of gold at an average daily spot price of \$1,302 per ounce.
- Professional and consulting fees increased 27.8% from the second quarter of 2017 to \$1.6 million due to higher professional and corporate consulting-related expenses globally. These expenses were essentially unchanged from the first quarter of 2018.
- Occupancy, communications and equipment expense increased 14.8% from the second quarter of 2017 and 15.5% from the first quarter of 2018 to \$1.6 million primarily due to higher headcount associated with the ETFS Acquisition.
- Third-party distribution fees increased 148.7% from the second quarter of 2017 to \$1.7 million primarily due to a new distribution relationship announced in the fourth quarter of 2017 and higher fees paid to our third-party marketing agent in Latin America. These expenses were essentially unchanged from the first quarter of 2018.
- Acquisition-related costs increased \$5.9 million from the first quarter of 2018 to \$7.9 million and included professional advisor fees payable upon completion of the ETFS Acquisition, a write-off of our office lease and compensation and other integration costs. Costs incurred in the prior quarter were principally severance, professional fees and other integration costs.
- Other expenses increased 22.7% from the second quarter of 2017 and 26.3% from the first quarter of 2018 to \$2.3 million primarily due to higher International Business segment office expenses associated with an increase in headcount from the ETFS Acquisition.

Other Income/(Expenses)

- Interest expense for the second quarter of 2018 of \$2.4 million was incurred principally in connection with a newly raised term loan to facilitate the ETFS Acquisition. Our effective interest rate during the period was 4.9% and includes our cost of borrowing and amortization of issuance costs.
- Gain on revaluation of deferred consideration of \$9.9 million arose from the ongoing contractual gold payment obligation described above that we assumed from ETFS Capital in connection with the ETFS Acquisition. The present value of the ongoing obligation to pay 9,500 ounces of gold until March 2058, which is then reduced to 6,333 ounces into perpetuity, is recorded on our Consolidated Balance Sheet as deferred consideration, which is re-measured each quarter based upon forward-looking gold prices. A gain was recognized during the second quarter of 2018 as the price of gold had declined when compared to the price on April 11, 2018, the date on which the deferred consideration was originally measured.
- Interest income was essentially unchanged from the second quarter of 2017. Interest income decreased 36.4% from the first quarter of 2018 to \$0.6 million due to lower interest income on our short-term investment grade bond portfolio which has matured, partly offset by paid-in-kind ("PIK") interest on a note receivable from AdvisorEngine Inc.
- Other net losses increased 37.6% from the second quarter of 2017 and 92.0% from the first quarter of 2018 to \$0.5 million primarily due to realized losses arising from the sale of gold earned from management fees paid by physically-backed gold ETPs associated with the ETFS Acquisition, as well as miscellaneous foreign exchange losses.

Income Taxes

Our estimated effective income tax rate for the quarter ended June 30, 2018 of 24.6% (as adjusted 29.2%¹) resulted in income tax expense of \$5.5 million. Our tax rate differs from the federal statutory tax rate of 21% primarily due to non-deductible acquisition-related costs, a valuation allowance on foreign net operating losses

and state and local income taxes, partly offset by the gain on revaluation of deferred consideration and a lower tax rate on foreign earnings. The gain on revaluation of deferred consideration is not adjusted for income taxes as the obligation was assumed by a wholly-owned subsidiary of ours that is based in Jersey, a region where we are subject to a zero percent tax rate.

Six Month Results

Total operating revenues increased 22.0% to \$133.7 million for the six months ended June 30, 2018 primarily due to higher average global AUM, including the \$17.6 billion of AUM acquired in connection with the ETFS Acquisition. Total operating expenses increased 30.8% to \$105.9 million primarily due to expenses associated with the ETFS acquired business. In addition, operating expenses for the six months ended June 30, 2018 include acquisition-related costs of \$10.0 million.

Other income/(expenses) for the six months ended June 30, 2018 includes \$2.4 million of interest expense incurred principally in connection with a newly raised term loan to facilitate the ETFS Acquisition, as well as a gain on revaluation of deferred consideration of \$9.9 million associated with the ETFS Acquisition. Interest income increased 28.5% to \$1.6 million, primarily due to PIK interest on a note receivable from AdvisorEngine, Inc., partly offset by lower interest income on our short-term investment grade bond portfolio which has matured. In addition, the prior year period includes a settlement gain of \$6.9 million as well as a reimbursement of fund-related costs of \$0.8 million classified within other gains and losses, net.

Balance Sheet

In connection with the ETFS Acquisition, at April 11, 2018 we recognized goodwill of \$84.1 million, intangible assets of \$601.2 million, deferred consideration of \$172.7 million, long-term debt, net of issuance costs of \$192.9 million, preferred stock of \$132.6 million and common stock of \$137.2 million.

As of June 30, 2018, we had total assets of \$902.1 million which consisted primarily of intangible assets of \$613.2 million, goodwill of \$85.9 million, cash and cash equivalents of \$70.7 million, investments of \$35.2 million, securities held-to-maturity of \$20.2 million, accounts receivable of \$27.3 million and a note receivable of \$24.6 million. There were approximately 153.1 million shares of our common stock outstanding as of June 30, 2018. Fully diluted weighted average shares outstanding were 163.3 million for the quarter.

Quarterly Dividend

Our Board of Directors declared a quarterly cash dividend of \$0.03 per share of our common stock. The dividend will be paid on August 22, 2018 to stockholders of record as of the close of business on August 8, 2018.

Conference Call

WisdomTree will discuss its results and operational highlights during a conference call on Friday, July 27, 2018 at 9:00 a.m. ET. The call-in number will be (877) 303-7209. Anyone outside the U.S. or Canada should call (970) 315-0420. The slides used during the presentation will be available at <http://ir.wisdomtree.com>. For those unable to join the conference call at the scheduled time, an audio replay will be available on <http://ir.wisdomtree.com>.

Cautionary Statement Regarding Forward-Looking Statements

This press release contains forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other things, the risks described below. If one or more of these or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this press release completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this press release may include statements about:

- anticipated trends, conditions and investor sentiment in the global markets and ETPs;
- anticipated levels of inflows into and outflows out of our ETPs;
- our ability to deliver favorable rates of return to investors;
- our ability to develop new products and services;
- our ability to maintain current vendors or find new vendors to provide services to us at favorable costs;
- our ability to successfully expand our business into non-U.S. markets;
- competition in our business; and
- the effect of laws and regulations that apply to our business.

Our business is subject to many risks and uncertainties, including without limitation:

Net outflows in our two largest ETFs – the WisdomTree Europe Hedged Equity Fund and the WisdomTree Japan Hedged Equity Fund – have had, and in the future could continue to have, a negative impact on our revenues.

Over the last few years, we have expanded our business globally. This expansion subjects us to increased operational, regulatory, financial and other risks.

The ETFS Acquisition is significant in size relative to our assets and operations and may result in significant changes in our business. Our failure to integrate and manage ETFS successfully could materially and adversely affect our business, results of operations and financial condition.

Declining prices of securities, precious metals and other commodities can adversely affect our business by reducing the market value of the assets we manage or causing customers to sell their fund shares and trigger redemptions.

Fluctuations in the amount and mix of our AUM, whether caused by disruptions in the financial markets or otherwise, may negatively impact revenues and operating margins, and may impede our ability to refinance our debt upon maturity, increase the cost of borrowing or result in our debt being called prior to maturity.

We derive a substantial portion of our revenues from a limited number of products, and as a result, our operating results are particularly exposed to the performance of these products and our ability to maintain the AUM of these products, as well as investor sentiment toward investing in the funds' strategies and market-specific and political and economic risk.

Much of our AUM is held in our U.S. listed ETFs that invest in foreign securities and we therefore have substantial exposure to foreign market conditions and are subject to foreign currency exchange rate risks.

Many of our ETPs and ETFs have a limited track record, and poor investment performance could cause our revenues to decline.

We depend on third parties to provide many critical services to operate our business and our ETPs and ETFs. The failure of key vendors to adequately provide such services could materially affect our operating business and harm our customers.

Other factors, such as general economic conditions, including currency exchange rate fluctuations, also may have an effect on the results of our operations. For a more complete description of the risks noted above and other risks that could cause our actual results to differ from our current expectations, please see the section entitled "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017 and Quarterly Report on Form 10-Q for the quarter ended March 31, 2018.

The forward-looking statements in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this press release.

About WisdomTree

WisdomTree Investments, Inc., through its subsidiaries in the U.S., Europe, Canada and Japan (collectively, "WisdomTree"), is an exchange-traded fund ("ETF") and exchange-traded product ("ETP") sponsor and asset manager headquartered in New York. WisdomTree offers products covering equities, fixed income, currencies, commodities and alternative strategies. WisdomTree currently has approximately \$60.2 billion in assets under management globally.

WisdomTree® is the marketing name for WisdomTree Investments, Inc. and its subsidiaries worldwide.

¹ See "Non-GAAP Financial Measurements."

² Gross margin is now calculated as total operating revenues, less fund management and administration expenses. Gross margin percentage is calculated as gross margin divided by total operating revenues. See "Non-GAAP Financial Measurements" below for additional information. Amounts previously reported as gross margin for the U.S. Business segment have been restated to conform with our current presentation.

Non-GAAP Financial Measurements

In an effort to provide additional information regarding our results as determined by GAAP, we also disclose certain non-GAAP information which we believe provides useful and meaningful information. Our management reviews these non-GAAP financial measurements when evaluating our financial performance and results of operations; therefore, we believe it is useful to provide information with respect to these non-GAAP measurements so as to share this perspective of management. Non-GAAP measurements do not have any standardized meaning, do not replace nor are superior to GAAP financial measurements and are unlikely to be comparable to similar measures presented by other companies. These non-GAAP financial measurements should be considered in the context with our GAAP results. The non-GAAP financial measurements contained in this release include:

- *Adjusted net income and adjusted diluted net income per share.* We disclose adjusted net income and adjusted diluted net income per

share as non-GAAP financial measurements in order to report our results exclusive of items that are non-recurring or not core to our operating business. These non-GAAP financial measures exclude the following:

- Unrealized gains or losses on the revaluation of deferred consideration: Deferred consideration is an obligation we assumed in connection with the ETFs Acquisition that is carried at fair value. This item represents the present value of an obligation to pay fixed ounces of gold into perpetuity and is measured using forward-looking gold prices. Changes in the price of gold may have a material impact on the carrying value of the deferred consideration and our reported net income. We exclude this item when arriving at adjusted net income and adjusted diluted net income per share as it is not core to our operating business. The item is not adjusted for income taxes as the obligation was assumed by a wholly-owned subsidiary of ours that is based in Jersey, a jurisdiction where we are subject to a zero percent tax rate.
- Non-recurring items: The following non-recurring items are excluded when arriving at adjusted net income and adjusted earnings per share (i) acquisition-related costs of \$7.9 million (or \$7.5 million after-tax) and \$2.1 million (or \$1.9 million after-tax) for the second quarter and first quarter of 2018, respectively and (ii) a settlement gain of \$6.9 million (or \$4.3 million after-tax) for the second quarter of 2017.
- *Adjusted effective income tax rate.* We disclose our adjusted effective income tax rate as a non-GAAP financial measurement in order to report our effective income tax rate exclusive of items that are non-recurring or not core to our operating business. We believe reporting our adjusted effective income tax rate provides investors with a consistent way to analyze our income taxes. Our adjusted effective income tax rate is calculated by dividing adjusted income tax expense by adjusted income before income taxes. See “adjusted net income and adjusted diluted net income per share” above for information regarding the items that are excluded.
- *Gross margin and gross margin percentage.* We disclose our gross margin and gross margin percentage as non-GAAP financial measurements for our U.S. Business segment and International Business segment because we believe they provide investors with a consistent way to analyze the amount we retain after paying third-party service providers to operate our ETPs. These ratios also assist us in analyzing the profitability of our products. We define gross margin as total operating revenues less fund management and administration expenses. Gross margin percentage is calculated as gross margin divided by total operating revenues.
- *Adjusted operating income margin.* We disclose adjusted operating income margin as a non-GAAP financial measurement on a consolidated basis, as well as for our U.S. Business segment and International Business segment in order to report our operating income margin exclusive of items that are non-recurring or not core to our operating business.
