WisdomTree Announces Second Quarter 2013 Results

\$5.0 billion net inflows in quarter

Net inflow market share 29% in second quarter, 15% first half

Record revenues, up 83% from year ago quarter

Record net income \$12.2 million, up 56% from prior quarter

Diluted EPS \$0.09

New York, NY – (GlobeNewswire) – July 26, 2013 – WisdomTree Investments, Inc. (NASDAQ: WETF), an exchange-traded fund ("ETF") sponsor and asset manager, today reported net income of \$12.2 million for the second quarter of 2013, or \$0.09 per share on a fully diluted basis. This compares to \$0.1 million in the second quarter of 2012 and \$7.9 million in the first quarter of 2013.

WisdomTree CEO and President Jonathan Steinberg commented, "With \$5.0 billion in net inflows for the quarter and nearly \$11 billion in the first half of 2013, we continued our positive momentum from the first quarter to achieve a strong second quarter with record market share gains. WisdomTree was the third best asset gatherer across all U.S. mutual fund and ETF complexes in the second quarter according to Morningstar."

Mr. Steinberg continued, "WisdomTree's innovative ETF strategies are powering our top-line growth, with our currency hedged equity and domestic equity families leading our net inflows in the second quarter. While growing our existing funds, we are also seeking to bolster and expand upon the success of these strategies by launching new funds. In the second quarter, we listed two new currency hedged equity funds and our first dividend growth ETF.

Mr. Steinberg concluded, "Our robust asset growth is translating into excellent financial results with record revenues and net income in the second quarter. While we believe the ETF industry is still in its early innings of growth, WisdomTree is already proving the efficiency and scale of our business model: we achieved a 33% pre-tax margin on a base of \$28.4 billion in average assets."

Assets Under Management, Net Inflows and Market Share

ETF assets under management ("AUM") were \$29.0 billion at June 30, 2013, up 93.1% from \$15.0 billion at June 30, 2012, and up 15.4% from \$25.1 billion at March 31, 2013. Net inflows for the second quarter of 2013 were \$5.0 billion as compared to \$0.3 billion in the second quarter of 2012 and \$5.9 billion in the first quarter of 2013. WisdomTree's market share of industry net inflows was 29.4% in the second quarter of 2013 as compared to 1.4% in the second quarter of 2012 and 10.8% in the first quarter of 2013. For the first six months of 2013, WisdomTree's market share was 15.2% as compared to 3.4% for the first six months of 2012.

Second Quarter Financial Discussion

Revenues

Total revenues increased 83.1% to a record \$37.3 million as compared to the second quarter of 2012 and 27.2% compared to the first quarter of 2013 primarily due to higher average AUM as a result of \$5.0 billion of net inflows into our ETFs. Our average advisory fee earned was 0.52% as compared to 0.54% for the second quarter of 2012 and first quarter of 2013 due to the majority of our inflows arising from our Japan Hedged Equity Fund (DXJ), which is priced at 0.48%.

Margins

Our gross margin, which is our total revenues less fund management and administration expenses and third party sharing arrangements, was 74% in the second quarter of 2013 as compared to 67% in the second quarter of 2012 and 72% in the first quarter of 2013. Higher AUM and the end of our joint venture with BNY Mellon were the primary drivers for the higher gross margin.

Our pre-tax margin was 33% in the second quarter of 2013 as compared to 1% (or 15% proforma) in the second quarter of 2012 and 27% in the first quarter of 2013 reflecting the operating scale in our business model.

Expenses

Total expenses increased 23.8% to \$25.1 million from \$20.3 million in the second quarter of 2012 and increased 16.8% from \$21.5 million in the first quarter of 2013. Included in the prior periods were non-operating items related to patent litigation and ETF shareholder proxy.

	Th	Three Months Ended			Change from

Total expenses	\$25,089	\$21,487	\$20,264	16.8%	23.8%	
Patent litigation, net			191			
ETF shareholder proxy	—		(3,198)			
Proforma operating expenses (non-GAAP)	\$25,089	\$21,487	\$17,257	16.8%	45.4%	

Compensation and benefits expense increased 72.5% to \$9.4 million compared to the second quarter of 2012. This increase was primarily due to higher accrued incentive compensation due to our record level of net inflows. In addition, we incurred higher stock based compensation due to equity awards granted to our employees as part of year-end compensation. Lastly, we incurred higher headcount related expenses. Our headcount at the end of the second quarter of 2013 was 79 compared to 66 at the end of the second quarter of 2012.

Compensation and benefits expense increased 26.3% compared to the first quarter of 2013 primarily due to higher accrued incentive compensation due to our strong results.

Fund management and administration expenses increased 63.6% to \$9.1 million compared to the second quarter of 2012. At the end of 2012, we ended our joint venture with BNY Mellon. As a result, we began to record certain operating costs related to our currency and fixed income ETFs, which were previously recognized by BNY Mellon as part of the joint venture. This resulted in approximately \$0.6 million in higher costs, while eliminating the expense of the third-party sharing arrangement. Higher average AUM resulted in a \$2.7 million increase in portfolio management, fund administration, accounting, index licensing, regulatory and distribution fees. We also incurred \$0.3 million in higher printing related fees due to an increase in the number of holders of our ETFs.

Fund management and administration expenses increased 10.7% compared to the first quarter of 2013 primarily due to higher average AUM.

- Marketing and advertising expenses increased 41.9% to \$2.2 million compared to the second quarter of 2012 and increased 13.4% compared to the first quarter of 2013 primarily due to higher levels of advertising related activities to support our growth.
- Sales and business development expenses increased 80.5% to \$1.5 million compared to the second quarter of 2012 primarily due to new product development related activities as well as higher levels of spending for sales related initiatives.

Sales and business development expenses decreased 15.6% compared to the first quarter of 2013 primarily due to lower level of sales related spending.

- Professional and consulting fees decreased 53.1% to \$0.7 million compared to the second quarter of 2012 primarily due to lower variable stock based compensation, which ended as of the end of 2012, partly offset by higher corporate consulting related fees. Professional and consulting fees increased slightly compared to the first quarter of 2013.
- Occupancy, communication and equipment expense increased 57.6% to \$0.6 million compared to the second quarter of 2012 and increased 56.8% compared to the first quarter of 2013. This increase was primarily due to \$0.2 million in commercial rent tax expense payable to NYC on our office space since 2008.
- Third-party sharing arrangements expense declined 65.2% to \$0.4 million compared to the second quarter of 2012 due to the end of our joint venture with BNY Mellon discussed above.

Third-party sharing arrangements expense increased \$0.3 million compared to the first quarter of 2013 primarily due to higher inflows raised by our marketing agent in Latin America.

Other expenses increased 42.8% to \$1.1 million compared to the second quarter of 2012 and increased 23.2% compared to the first quarter of 2013 primarily due to higher
general and administrative expenses.

Balance Sheet

As of June 30, 2013, WisdomTree had total assets of \$97.1 million which consisted primarily of cash and cash equivalents of \$70.7 million and investments of \$11.4 million. There were approximately 128.0 million shares of common stock issued as of June 30, 2013. Fully diluted weighted average shares outstanding was approximately 140 million.

Cautionary Statement Regarding Forward-Looking Statements

This press release contains forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other things, the risks described below. If one or more of these to or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this press release completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this press release may include statements about:

- anticipated trends, conditions and investor sentiment in the global markets;
- anticipated levels of inflows into and outflows out of our exchange traded funds;
- our ability to deliver favorable rates of return to investors;
- our ability to develop new products and services;
- our ability to maintain current vendors or find new vendors to provide services to us at favorable costs;
- · competition in our business; and
- the effect of laws and regulations that apply to our business.

Our business is subject to many risks and uncertainties, including without limitation:

• We have only a limited operating history and, as a result, recent historical growth may not provide an accurate representation of the growth we may experience in the future, which may make it difficult to evaluate our future prospects.

- Challenging market conditions associated with declining prices of securities can adversely affect our business by reducing the market value of the assets we manage or causing WisdomTree ETF shareholders to sell their fund shares and trigger redemptions.
- Fluctuations in the amount and mix of our AUM may negatively impact revenue and operating margin.
- Most of our assets under management are held in ETFs that invest in foreign securities and we therefore have substantial exposure to foreign market conditions
 and are subject to currency exchange rate risks.
- We derive a substantial portion of our revenue from products invested in emerging markets and are exposed to the market-specific political and economic risks as well as general investor sentiment regarding future growth of those markets.
- We derive a substantial amount of our revenue from products invested in securities of Japanese companies and are exposed to the market-specific political and economic risks as well as general investor sentiment regarding future growth of those markets and currency fluctuations between the Japanese Yen and the U.S. Dollar.
- We derive a majority of our revenue from a limited number of products—in particular one fund, WisdomTree Japan Hedged Equity Fund, that accounted for 34.3% of our ETF AUM at June 30, 2013—and, as a result, our operating results are particularly exposed to the performance of those funds, investor sentiment toward the strategies pursued by those funds and our ability to maintain the assets under management of those funds.
- The WisdomTree ETFs have a limited track record, and poor investment performance could cause our revenue to decline.
- We depend on other third parties to provide many critical services to operate our business and the WisdomTree ETFs. The failure of key vendors to adequately
 provide such services could materially affect our operating business and harm WisdomTree ETF shareholders.

Other factors, such as general economic conditions, including currency exchange rate fluctuations, also may have an effect on the results of our operations. For a more complete description of the risks noted above and other risks that could cause our actual results to differ from our current expectations, please see the section entitled "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012.

The forward-looking statements in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this press release.

Non-GAAP Financial Measurements

In an effort to provide additional information regarding our results as determined by GAAP, we also disclose certain non-GAAP information which we believe provides useful and meaningful information. The non-GAAP financial measurements included in this release include proforma operating income, proforma expenses and proforma pre-tax operating margin. Our management reviews these non-GAAP financial measurements when evaluating our financial performance and results of operations; therefore, we believe it is useful to provide information with respect to these non-GAAP measurements so as to share this perspective of management. Non-GAAP measurements do not have any standardized meaning, do not replace nor are superior to GAAP financial measurements and are unlikely to be comparable to similar measures presented by other companies. These non-GAAP financial measurements should be considered in the context with our GAAP results. We have disclosed our results excluding certain non-operating items including (1) our patent litigation with Research Affiliates LLC; and (2) expenses for the WisdomTree ETF shareholder proxy solicitation; Management excludes these items when measuring our financial performance as they are not directly related to our core business of being an ETF sponsor and asset manager.
