#### WisdomTree Announces Third Quarter 2015 Results

Net income up 119.2% year-over-year to \$23.3 million or diluted EPS \$0.17

Revenues up 71.4% year-over-year to \$80.8 million

U.S. pre-tax margin of 52%; consolidated pre-tax margin of 49%

Declares \$0.08 quarterly dividend and \$0.25 special dividend

New York, NY – (GlobeNewswire) – October 30, 2015 – WisdomTree Investments, Inc. (NASDAQ: WETF), an exchange-traded fund ("ETF") and exchange-traded product ("ETP") sponsor and asset manager today reported net income of \$23.3 million for the third quarter of 2015 or \$0.17 per share on a fully diluted basis. This compares to \$10.6 million in the third quarter of 2014 and \$24.2 million for the second quarter of 2015.

WisdomTree CEO and President Jonathan Steinberg said, "WisdomTree generated strong financial results and achieved a solid third quarter despite a challenging market environment. These results reflect our overall financial strength and demonstrate the profitable, scalable and highly efficient nature of our operating model."

Mr. Steinberg continued, "WisdomTree is ideally positioned for the future of asset management, as we continue to enhance our global ETF platform through investments in headcount, product and client-facing services. The structural shift to passive investing and ETFs is continuing, the appetite for investment innovations like Smart Beta and Currency Hedging is growing and a decisive move toward greater transparency in financial products and advice is more pronounced than ever. These are all trends that will continue to be advantageous to WisdomTree going forward."

Mr. Steinberg concluded, "In reflection of our growing financial resources, we are pleased to further enhance our capital management program through the addition of a \$0.25 special dividend. We first instituted a \$0.08 regular quarterly dividend and a \$100 million share buyback program in the third quarter of 2014. Since that time we have achieved robust growth in assets, revenues and earnings while continuing to make investments for future growth. We are demonstrating an ability to profitably grow the business, reinvest for future growth and return surplus capital to our shareholders."

#### Recent Business Developments

- On October 30, 2015, the Company announced it will enter the Commodity ETF space through the acquisition of The GreenHaven Commodity Funds: the GreenHaven Continuous Commodity Index Fund (GCC) and the GreenHaven Coal Fund (TONS)
- On October 29, 2015, the Company announced the launch of the WisdomTree Europe Local Recovery Fund (EZR), the WisdomTree Strong Dollar Emerging
  Markets Equity Fund (EMSD) and the WisdomTree Global ex-U.S. Hedged Real Estate Fund (HDRW)
  - WisdomTree Europe:
    - Listed the WisdomTree UK Equity Income UCITS ETF (WUKD) in London on the London Stock Exchange on October 8, 2015; and listed the WisdomTree Emerging Asia Equity Income UCITS ETF (DEMA) in London on the London Stock Exchange on October 12, 2015, and in Italy on Borsa Italiana and in Germany on Börse Xetra on October 15, 2015.
    - Listed two Boost ETPs in Italy on Borsa Italiana on October 19, 2015.

#### Assets Under Management and Net Inflows

U.S. listed ETF assets under management ("AUM") was \$53.0 billion at the end of the third quarter, up 35.0% for the year and up 48.1% from the third quarter of last year primarily due to record net inflows. However, AUM declined 13.5% from the end of the second quarter of this year due to \$7.6 billion of negative market movement as well as \$0.7 billion of net outflows, primarily in our emerging market ETFs.

European listed AUM increased to \$695.7 million at the end of the third quarter, up from the third quarter of last year and the second quarter of this year primarily due to net inflows, partially offset by negative market movement.

#### **Performance**

In evaluating the performance of our U.S. listed equity, fixed income and alternative ETFs against actively managed and index based mutual funds and ETFs, 91% of the \$52.4 billion invested in our ETFs and 55% (33 of 60) of our ETFs outperformed their comparable Morningstar average since inception as of September 30, 2015.

For more information about WisdomTree ETFs including standardized performance, please click here or visit www.wisdomtree.com.

#### Third Quarter Financial Discussion

#### Revenues

Total revenues increased 71.4% from the third quarter of 2014 primarily due to higher average AUM from strong inflows. Total revenues declined 1.0% from the second quarter of 2015 primarily due to lower average AUM due to negative market movement in our U.S. listed ETFs. Revenues from our European listed ETPs increased to \$1.3 million from \$0.2 million in the third quarter of 2014 primarily due to higher inflows into our Boost branded ETPs. The average advisory fee for our U.S. listed ETFs increased to 0.53% as compared to 0.52% for the third quarter of 2014 and was flat compared to the second quarter of 2015.

#### Margins

Gross margin for our U.S. listed ETFs, which is our total revenues less fund management and administration expenses and third party sharing arrangements, was 87.2% in the third quarter of 2015 as compared to 82.2% in the third quarter of 2014 primarily due to higher average AUM. Gross margins increased from the second quarter of 2015 due to lower regulatory fees as a result of net outflows in the quarter.

Consolidated pre-tax margin was 49.0% in the third quarter of 2015. Pre-tax margin for our U.S. listed ETFs was 52.3% on average U.S. listed AUM of \$59.6 billion.

#### Expenses

Total expenses increased 53.5% from the third quarter of 2014 and 1.5% compared to the second quarter of 2015 to \$41.2 million. Included in the quarter was \$3.3 million of expenses associated with our European listed ETPs.

Compensation and benefits expense increased 94.3% from the third quarter of 2014 to \$19.4 million due to higher accrued incentive compensation as a result of
record setting inflow levels, increased headcount related expenses to support our growth and higher stock based compensation due to equity granted as part of
incentive compensation. Included in the quarter was \$1.5 million in compensation costs for employees associated with our European listed ETPs.

This expense increased 4.0% compared to the second quarter of 2015 primarily due to higher headcount related costs as part of our strategic growth initiatives. Payroll related taxes were higher in the third quarter due to bonus payments and employees exercising stock options.

Fund management and administration expense increased 24.3% from the third quarter of 2014 to \$10.5 million. This increase was primarily due to higher average AUM, inflow levels and number of U.S. ETFs. We also incurred additional costs for our European listed ETPs as a result of launching our WisdomTree UCITS ETFs in the fourth quarter of 2014. We had 79 U.S. listed ETFs and 74 European listed ETPs at the end of the quarter.

This expense decreased 6.1% compared to the second quarter of 2015 primarily due to lower regulatory fees as a result of net outflows in the quarter.

- Marketing and advertising expense increased 6.9% from the third quarter of 2014 primarily due to higher levels of advertising related activities to support our
  growth. This expense was relatively unchanged compared to the second quarter of 2015.
- Sales and business development expense increased 90.6% from the third quarter of 2014 and 17.4% from the second quarter of 2015 to \$2.4 million primarily due to
  higher spending for sales related activities.
- Professional and consulting fees increased 13.5% from the third quarter of 2014 to \$1.6 million primarily due to advisory fees associated with our acquisition of Greenhaven ETFs as well as higher technology related initiatives. This expense was relatively unchanged compared to the second quarter of 2015.
- Occupancy, communications and equipment expense increased 34.1% compared to the third quarter of 2014 and 25.5% compared to the second quarter of 2015
  primarily due to technology equipment spending initiatives and higher rent expense due to higher property taxes.
- Depreciation and amortization expense was also relatively unchanged at \$0.2 million as compared to the third quarter of 2014 and second quarter of 2015.
- Third-party sharing arrangements expense increased 159.4% compared to the third quarter of 2014 primarily due to fees for listing our ETFs on a third party
  platform. This expense was relatively unchanged compared to the second quarter of 2015.
- Acquisition contingent payment expense was \$0.2 million in the third quarter of 2015. This represents the current expense accrual for expected payments due to the former Boost shareholders related to our acquisition in April 2014 and is primarily driven by increased AUM derived from our European business.
- Other expenses increased 44.3% from the third quarter of 2014 and 7.4% from the second quarter of 2015 to \$1.6 million primarily due to higher general and administrative spending.
- Income tax expense was \$16.2 million for the third quarter of 2015. The effective tax rate on our U.S. listed ETF business was 39.1% in the third quarter. The Company's overall effective tax rate was 41.1% due to the non-deductibility of losses in our European ETP business. These losses may be recognized in the future after the European business is profitable.

#### **Balance Sheet**

As of September 30, 2015, the Company had total assets of \$292.4 million which consisted primarily of cash and cash equivalents and investments of \$235.6 million. There were approximately 136.7 million shares of common stock outstanding as of September 30, 2015. Fully diluted weighted average shares outstanding were 138.2 million for the third quarter.

#### **Dividend and Share Buyback**

The Company's Board of Directors declared a quarterly cash dividend of \$0.08 per share of the Company's common stock. The dividend will be paid on November 25, 2015 to stockholders of record as of the close of business on November 11, 2015.

The Company's Board of Directors also declared a special cash dividend of \$0.25 per share of the Company's common stock. The dividend will be paid on November 25, 2015 to stockholders of record as of the close of business on November 11, 2015.

The Company purchased 329,635 shares for \$8.4 million in the third quarter of 2015.

#### **Conference Call**

WisdomTree will discuss its results and operational highlights during a conference call on Friday, October 30, 2015 at 9:00 a.m. ET. The call-in number will be (877) 303-7209. Anyone outside the U.S. or Canada should call (970) 315-0420. The slides used during the presentation will be available at <u>http://ir.wisdomtree.com</u>. #### **Cautionary Statement Regarding Forward-Looking Statements**

This press release contains forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other things, the risks described below. If one or more of these or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this press release completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this press release may include statements about:

- anticipated trends, conditions and investor sentiment in the global markets and ETPs;
- anticipated levels of inflows into and outflows out of our ETPs;
- our ability to deliver favorable rates of return to investors;
- our ability to develop new products and services;

- our ability to maintain current vendors or find new vendors to provide services to us at favorable costs;
- our ability to successfully expand our business into non-U.S. markets;
- timing of payment of our cash income taxes;
- competition in our business; and
- the effect of laws and regulations that apply to our business.

Our business is subject to many risks and uncertainties, including without limitation:

- Recent historical growth may not provide an accurate representation of the growth we may experience in the future, which may make it difficult to evaluate our future prospects.
- Challenging global market conditions associated with declining prices of securities can adversely affect our business by reducing the market value of the assets we
  manage or causing customers to sell their fund shares and trigger redemptions.
- · Fluctuations in the amount and mix of our AUM may negatively impact revenue and operating margin.
- We derive a substantial portion of our revenue from a limited number of products in particular two funds, the WisdomTree Europe Hedged Equity Fund and the
  WisdomTree Japan Hedged Equity Fund and, as a result, our operating results are particularly exposed to the performance of those funds, investor sentiment
  toward the strategies pursued by those funds and our ability to maintain the AUM of those funds.
- Most of our AUM are held in our U.S. listed ETFs that invest in foreign securities and we therefore have substantial exposure to foreign market conditions and are subject to currency exchange rate risks.
- We derive a substantial portion of our revenue from international hedged equity ETFs and are exposed to the market-specific political and economic risks, as well
  as general investor sentiment regarding monetary policy of those markets.
- We derive a substantial portion of our revenue from products invested in securities of Japanese and European companies and are exposed to the market-specific
  political and economic risks, as well as general investor sentiment regarding future growth of those markets and currency fluctuations.
- We derive a significant portion of our revenue from products invested in emerging markets and are exposed to the market-specific political and economic risks as
  well as general investor sentiment regarding future growth of those markets.
- Many of our ETPs and ETFs have a limited track record, and poor investment performance could cause our revenue to decline.

• We depend on third parties to provide many critical services to operate our business and our ETPs and ETFs. The failure of key vendors to adequately provide such services could materially affect our operating business and harm our customers.

Other factors, such as general economic conditions, including currency exchange rate fluctuations, also may have an effect on the results of our operations. For a more complete description of the risks noted above and other risks that could cause our actual results to differ from our current expectations, please see the section entitled "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

The forward-looking statements in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this press release.

#### **Non-GAAP Financial Measurements**

In an effort to provide additional information regarding our results as determined by GAAP, we also disclose certain non-GAAP information which we believe provides useful and meaningful information. The non-GAAP financial measurements included in this release include gross margin, gross margin percentage and our operating results for our US and European listed ETF businesses. Our management reviews these non-GAAP financial measurements when evaluating our financial performance and results of operations; therefore, we believe it is useful to provide information with respect to these non-GAAP measurements so as to share this perspective of management. Non-GAAP measurements do not have any standardized meaning, do not replace nor are superior to GAAP financial measurements and are unlikely to be comparable to similar measures presented by other companies. These non-GAAP financial measurements should be considered in the context with our GAAP results. We disclose gross margin as a non-GAAP financial measurement to allow investors to analyze our revenues less the direct costs paid to third parties attributable to those revenues. We disclose the results of our US listed ETF business to allow investors to better compare our results to the prior year as in April 2014, we acquired Boost ETP, a UK based ETP sponsor.
