#### WisdomTree Announces Second Quarter 2016 Results

\$0.03 diluted EPS for the quarter, or \$0.07 as adjusted

Declares \$0.08 quarterly dividend

New York, NY – (GlobeNewswire) – July 29, 2016 – WisdomTree Investments, Inc. (NASDAQ: WETF), an exchange-traded fund ("ETF") and exchange-traded product ("ETP") sponsor and asset manager today reported net income of \$3.7 million or \$0.03 diluted EPS in the second quarter. Excluding the previously announced charge of \$6.0 million related to the Company's accelerated buyout of minority shareholders in its European business, adjusted net income (a non-GAAP measure¹) was \$9.6 million or \$0.07 diluted EPS. This compares to \$24.2 million or \$0.18 diluted EPS in the second quarter of last year and \$12.1 million or \$0.09 diluted EPS in the first quarter of 2016.

WisdomTree CEO and President Jonathan Steinberg said, "Our largest Japan and European based exposures experienced outflows as these markets remained broadly out of favor during the quarter, more than offsetting inflows in domestic equities. We remain focused on our long term strategic growth plans."

Mr. Steinberg added, "We are excited about the growth opportunities for the ETF industry and believe many of WisdomTree's recent accomplishments and initiatives position us well for the future. Most recently, we completed the buyout of our European business, entered the fast-growing Canadian ETF market with locally listed funds and announced a global product partnership with the goal of providing investors around the world access to a novel China equity strategy in collaboration with one of the largest asset managers in China"

- · In May 2016, the Company announced the launch of the Enhanced Commodity UCITS ETF on the London Stock Exchange
- In June 2016, the Company announced the launch of the Enhanced Commodity UCITS ETF on the Borsa Italiana and Deutsche Börse Xetra; two Quality Dividend Growth UCITS ETFs on the London Stock Exchange, the Borsa Italiana and Deutsche Börse Xetra; and Boost Volatility and Emerging Markets ETPs on the Deutsche Börse Xetra; announced that its UCITS ETFs are now available in France and Sweden; and broadened the Boost Range of Oil ETPs with cross-listing on the London Stock Exchange
- In July 2016, the Company announced the launch of the Eurozone Quality Dividend Growth UCITS ETF on the London Stock Exchange, Borsa Italiana and the Deutsche Börse Xetra

#### Canadian Listed Product News

• In July 2016, the Company announced the launch of its first ETFs in Canada

#### Assets Under Management and Net Inflows

U.S. listed ETF assets under management ("AUM") were \$38.0 billion at June 30, 2016, down 26.3% from December 31, 2015 primarily due to \$10.3 billion of net outflows and \$3.5 billion of negative market movement. U.S. listed AUM was down 37.9% from June 30, 2015 primarily due to net outflows in 2016. Net outflows were primarily in our two largest funds, HEDJ and DXJ.

European listed AUM was \$952.0 million at June 30, 2016, up 23.0% from December 31, 2015 primarily due to \$251.2 million of net inflows. European listed AUM was up 55.4% from June 30, 2015 primarily due to net inflows.

#### **Performance**

In evaluating the performance of our U.S. listed equity, fixed income and alternative ETFs against actively managed and index based mutual funds and ETFs, 74% of the \$37.2 billion invested in our ETFs and 57% (43 of 76) of our ETFs outperformed their comparable Morningstar average since inception as of June 30, 2016.

#### Second Quarter Financial Discussion

#### Revenues

Total revenues decreased 31.4% from the second quarter of 2015 and 8.0% from the first quarter of 2016 due to declines in our AUM from outflows in our two largest ETFs and negative market movement. Our average advisory fee remained 0.52% during the quarter.

#### Margins

Gross margin for our U.S. listed ETFs, which is our total revenues less fund management and administration expenses and third party sharing arrangements, was 81.5% in the second quarter of 2016 as compared to 86.4% in the second quarter of 2015 and 82.9% in the first quarter of 2016. The decline over these periods was due to lower average AUM as well as the costs due to additional ETF launches.

Pre-tax margin was 19.9% in the second quarter of 2016 as compared to 50.2% in the second quarter of 2015 and 35.6% in the first quarter of 2016. Excluding the European buyout charge, adjusted pre-tax margin was 30.6% for the quarter. Pre-tax margin for our U.S. listed ETF business was 35.6% in the second quarter of 2016 as compared to 53.2% in the second quarter of 2015 and 40.7% in the first quarter of 2016.

#### Expenses

Total expenses increased 10.3% from the second quarter of 2015 and 14.3% from the first quarter of 2016. Excluding the European buyout charge of \$6.0 million, adjusted total expenses declined 4.4% from the second quarter of 2015 and 1.0% from the first quarter of 2016 as lower compensation was partly offset by higher marketing and sales related spending.

- Compensation and benefits expense declined 23.2% from the second quarter of 2015 to \$14.3 million due to lower accrued incentive compensation relating to outflows we experienced in the first half partly offset by higher headcount related expenses to support our growth and higher stock based compensation due to equity awards we granted as part of 2015 incentive compensation. Our headcount was 149 in the U.S. and 204 globally at the end of the quarter.
  - This expense declined 5.8% from the first quarter of 2016 due to lower accrued incentive compensation and higher seasonal taxes due to bonus payments in the first quarter which were partly offset by higher headcount related expenses.
- Fund management and administration expense decreased 5.2% from the second quarter of 2015 primarily due to lower fund costs for our U.S. listed ETF business as a result of lower average AUM partly offset by higher costs for additional fund launches by our European business.

This expense increased 5.7% compared to the first quarter of 2016 due to fund costs for our European business partly offset by lower U.S. listed fees due to lower average AUM. We had 99 U.S. listed ETFs and 94 ETPs at the end of the quarter.

- Marketing and advertising expense increased 25.9% from the second quarter of 2015 and 19.2% from the first quarter of 2016 to \$4.6 million primarily due to higher levels
  of advertising related activities to support our growth.
- Sales and business development expense increased 84.7% from the second quarter of 2015 and 56.7% from the first quarter of 2016 to \$3.8 million primarily due to higher spending for sales related initiatives.
- Professional and consulting fees decreased 14.9% from the second quarter of 2015 and 51.9% compared to the first quarter of 2016 to \$1.4 million due to lower corporate
  consulting related services and fees associated with our acquisition of the GreenHaven family of commodity ETFs, which was completed in January 2016.
- Occupancy, communications and equipment expense increased 31.6% from the second quarter of 2015 to \$1.2 million primarily due to technology initiatives and higher costs for our office space in London. This expense was relatively unchanged compared to the first quarter of 2016.
- Depreciation and amortization expense increased 48.0% from the second quarter of 2015 to \$0.3 million primarily due to higher amortization for leasehold improvements to our New York office space. This expense was essentially unchanged from the first quarter of 2016.
- Third-party sharing arrangements expense increased 42.7% from the second quarter of 2015 to \$0.7 million due to higher fees to our third party marketing agent in Latin America due to higher AUM. This expense declined 21.8% from the first quarter of 2016 due to lower AUM in Latin America.
- Acquisition payment expense was \$6.0 million in the second quarter of 2016. In April 2014, WisdomTree expanded into Europe through a 75% majority investment in U.K. based ETP sponsor Boost, with an obligation to buy out the remaining minority investment in four years. In May 2016, WisdomTree accelerated the buyout and completed the purchase of the remaining minority stake and made management changes to drive continued growth. As a result, the Company took a charge of \$6.0 million to reflect the accelerated purchase of the remaining 25% stake and other related expenses.
- Other expense increased 20.8% from the second quarter of 2015 and 11.7% from the first quarter of 2016 to \$1.8 million due to higher general and administrative expenses.
- Income tax expense was \$7.5 million for the second quarter of 2016. Our overall effective tax rate was 67.3% which was significantly higher than prior periods due to the non-deductibility of the European buyout charge. Excluding the buyout charge, the overall adjusted effective tax rate! was 43.8%.

#### Six Months Results

Total revenues declined 17.5% to \$116.9 million due to lower average AUM as a result of outflows in our two largest ETFs and negative market movement. Total expenses increased 5.4% to \$84.0 million. Excluding the European buyout charge of \$6.0 million, adjusted total expenses declined 2.1% as lower compensation was partly offset by higher marketing and sales related expenses.

#### Ralance Sheet

As of June 30, 2016, the Company had total assets of \$247.8 million which consisted primarily of cash and cash equivalents of \$174.9 million and investments of \$18.7 million. There were approximately 134.1 million shares of common stock outstanding as of June 30, 2016. Fully diluted weighted average shares outstanding were 137.3 million for the quarter.

#### Quarterly Dividend

The Company's Board of Directors declared a quarterly cash dividend of \$0.08 per share of the Company's common stock. The dividend will be paid on August 24, 2016 to stockholders of record as of the close of business on August 10, 2016.

#### **Conference Call**

WisdomTree will discuss its results and operational highlights during a conference call on Friday, July 29, 2016 at 9:00 a.m. ET. The call-in number will be (877) 303-7209. Anyone outside the U.S. or Canada should call (970) 315-0420. The slides used during the presentation will be available at <a href="http://ir.wisdomtree.com">http://ir.wisdomtree.com</a>. For those unable to join the conference call at the scheduled time, an audio replay will be available on <a href="http://ir.wisdomtree.com">http://ir.wisdomtree.com</a>.

#### **Cautionary Statement Regarding Forward-Looking Statements**

This press release contains forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other

things, the risks described below. If one or more of these or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this press release completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this press release may include statements about:

- anticipated trends, conditions and investor sentiment in the global markets and ETPs;
- anticipated levels of inflows into and outflows out of our ETPs;
- · our ability to deliver favorable rates of return to investors;
- · our ability to develop new products and services;
- our ability to maintain current vendors or find new vendors to provide services to us at favorable costs;
- · our ability to successfully expand our business into non-U.S. markets;
- timing of payment of our cash income taxes;
- · competition in our business; and
- the effect of laws and regulations that apply to our business.

Our business is subject to many risks and uncertainties, including without limitation:

- Financial growth in recent years may not provide an accurate representation of the financial growth we may experience in the future, which may make it difficult to
  evaluate our future prospects.
- Declining prices of securities can adversely affect our business by reducing the market value of the assets we manage or causing customers to sell their fund shares and trigger redemptions.
- Fluctuations in the amount and mix of our AUM may negatively impact revenues and operating margins.
- We derive a substantial portion of our revenues from two products the WisdomTree Europe Hedged Equity Fund and the WisdomTree Japan Hedged Equity Fund and, as a result, our operating results are particularly exposed to the performance of these funds and our ability to maintain the AUM of these funds, as well as investor sentiment toward investing in the funds' strategies and market-specific and political and economic risk.

- Most of our AUM are held in our U.S. listed ETFs that invest in foreign securities and we therefore have substantial exposure to foreign market conditions and are subject to currency exchange rate risks.
- Many of our ETPs and ETFs have a limited track record, and poor investment performance could cause our revenues to decline.
- We depend on third parties to provide many critical services to operate our business and our ETPs and ETFs. The failure of key vendors to adequately provide such services could materially affect our operating business and harm our customers.

Other factors, such as general economic conditions, including currency exchange rate fluctuations, also may have an effect on the results of our operations. For a more complete description of the risks noted above and other risks that could cause our actual results to differ from our current expectations, please see the section entitled "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

The forward-looking statements in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this press release.

#### **Non-GAAP Financial Measurements**

In an effort to provide additional information regarding our results as determined by GAAP, we also disclose certain non-GAAP information which we believe provides useful and meaningful information. Our management reviews these non-GAAP financial measurements when evaluating our financial performance and results of operations; therefore, we believe it is useful to provide information with respect to these non-GAAP measurements so as to share this perspective of management. Non-GAAP measurements do not have any standardized meaning, do not replace nor are superior to GAAP financial measurements and are unlikely to be comparable to similar measures presented by other companies. These non-GAAP financial measurements should be considered in the context with our GAAP results. The non-GAAP financial measurements contained in this release include:

- Gross margin and gross margin percentage. We disclose gross margin, which we define as total revenues less fund management and administration expenses and third-party sharing arrangements, and gross margin percentage as non-GAAP financial measurements because we believe they provide investors with a consistent way to analyze the amount we retain after paying third party service providers to operate our ETPs and third party marketing agents whose fees are associated with our AUM level. Management tracks gross margin and gross margin percentage to analyze the profitability of operating our products.
- Operating results for our U.S. listed ETF business. We disclose the results of our U.S. listed ETF business separately from the start up stage of our European business to allow investors to better understand and track the performance and operating efficiency of our core U.S. operations, which make up the vast majority of our operating and financial results.
- Operating results for the second quarter of 2016 excluding a \$6.0 million charge related to the accelerated buyout of the minority shareholders of our European business. We exclude this charge, which is not deductible for tax purposes, when analyzing our results as it is a one-time, non-recurring charge and not core to our operating business.
