WisdomTree Announces Fourth Quarter 2023 Results

Surpasses \$100 Billion in Total AUM

520bps of Operating Margin Expansion vs. the Prior Year

Diluted Earnings Per Share of \$0.16 (\$0.11, as Adjusted)

13% Annualized Organic Growth Rate Across All Products

New York, NY – (Business Wire) – February 2, 2024 – WisdomTree, Inc. (NYSE: WT), a global financial innovator, today reported financial results for the fourth quarter of 2023.

\$19.1 million net income (\$18.6⁽¹⁾ million net income, as adjusted), see “Non-GAAP Financial Measurements” for additional information.

\$100.1 billion of ending AUM, an increase of 6.8% arising primarily from market appreciation.

\$0.3 billion of net outflows, primarily driven by outflows from our fixed income and commodity products, partly offset by inflows into our U.S. equity and emerging markets products.

0.36% average advisory fee, unchanged from the prior quarter.

\$90.8 million of operating revenues, essentially unchanged from the prior quarter.

79.7% gross margin⁽¹⁾, a 0.4 point decrease from the prior quarter due to higher fund costs.

28.7% operating income margin, an 0.8 point decrease compared to our operating margin of 29.5% in the prior quarter primarily due to higher expenses.

Repurchase of Series C non-voting preferred shares convertible into 13.1 million shares of common stock from Gold Bullion Holdings (Jersey) Limited (“GBH”), a subsidiary of the World Gold Council, for aggregate cash consideration of approximately \$84.4 million, with \$40.0 million paid on the closing date and the remainder of the purchase price payable in equal annual installments on the first, second and third anniversaries of the closing date, with no requirement to pay interest. The repurchase price per share equated to \$6.02 per share when taking into consideration the interest-free financing element of the transaction.

\$0.03 quarterly dividend declared, payable on February 28, 2024 to stockholders of record as of the close of business on February 14, 2024.

Update from Jarrett Lilien, WisdomTree COO and President

“In 2023, we generated over \$10 billion of net inflows and extended our positive inflow streak to three consecutive years. This is the direct result of consistent hard work and our success in deepening relationships with advisors – in 2023 we grew our client base by 20% and also saw a 20% increase in the number of clients holding multiple WisdomTree products. Our strategy to expand our client base while deepening wallet share penetration, coupled with the success of our Portfolio Solutions initiative, is compounding growth and proving to be a formula for continued momentum in our organic growth for 2024 and years to come.”

Update from Jonathan Steinberg, WisdomTree CEO

“WisdomTree’s strong execution was on display once again in 2023, as demonstrated by our industry-leading organic growth. Our proactive management actions coupled with continued scale benefits drove 540 basis points of adjusted operating margin expansion year-over-year.

I’m thrilled that WisdomTree achieved \$100 billion of global assets under management for the first time in company history, and I’m confident that it will take significantly less time to gather the next \$100 billion in the years ahead – this next phase for WisdomTree will be driven by continued organic growth from adding new clients, the launch of new products, deepening wallet share with models, and our continued leadership in tokenization and blockchain-enabled finance.”

QUARTERLY HIGHLIGHTS

Operating Revenues

- Operating revenues were essentially unchanged from the third quarter of 2023 and increased 23.9% from the fourth quarter of 2022 primarily due to higher average AUM.
- Our average advisory fee was 0.36% during the fourth quarter of 2023, the third quarter of 2023 and the fourth quarter of 2022, respectively.

Operating Expenses

- Operating expenses increased 1.7% from the third quarter of 2023 primarily due to higher marketing expenses, sales and business development expenses and fund management and administration costs. These increases were partly offset by lower professional fees.
- Operating expenses increased 5.2% from the fourth quarter of 2022 primarily due to higher stock-based compensation and headcount, fund management and administration costs, third party distribution expenses and marketing expenses. These increases were partly offset by the termination of our deferred consideration—gold payments obligation on May 10, 2023.

Other Income/(Expenses)

- Interest expense increased 8.6% from the third quarter of 2023, primarily due to the recognition of imputed interest on our obligation payable to GBH. Interest expense was essentially unchanged from the fourth quarter of 2022, as the increase related to imputed interest on our obligation payable to GBH was offset by a lower level of debt outstanding.
- Interest income increased 54.9% from the third quarter of 2023 and 29.6% from the fourth quarter of 2022 due to a higher level of interest-earning assets.
- During the fourth quarter of 2023, we recognized a non-cash impairment charge of \$0.3 million on our investment in Securrency, Inc., as we marked our investment to net realizable value in connection with the closing of the sale of Securrency, Inc. to an unrelated third party.
- Other gains and losses, net was a gain of \$1.6 million for the fourth quarter of 2023. This quarter includes gains of \$0.5 million and \$1.0 million on our financial instruments and our investments, respectively. Gains and losses also generally arise from the sale of gold earned from management fees paid by our physically-backed gold exchange-traded products (“ETPs”), foreign exchange fluctuations and other miscellaneous items.

Income Taxes

- Our effective income tax rate for the fourth quarter of 2023 was 23.0%, resulting in income tax expense of \$5.7 million. The effective tax rate differs from the federal statutory rate of 21.0% primarily due to non-deductible executive compensation and state and local taxes, partly offset by a lower tax rate on foreign earnings.
- Our adjusted effective income tax rate for the fourth quarter was 22.3%⁽¹⁾.

ANNUAL HIGHLIGHTS

- Operating revenues increased 15.8% as compared to 2022 due to higher average AUM and higher other income from large flows from some of our European products, partly offset by a lower average advisory fee.
- Operating expenses increased 8.4% as compared to 2022 primarily due to higher stock-based compensation and headcount, fund management and administration costs, professional fees, marketing expenses, third-party distribution fees, sales and business development expenses and other expenses. These increases were partly offset by the termination of our deferred consideration—gold payments obligation on May 10, 2023.
- Significant items reported in other income/(expense) in 2023 include: an increase in interest income of 23.5% due to a higher level of interest-earning assets, a non-cash gain on revaluation/termination of deferred consideration of \$62.0 million during the first and second quarters; loss on extinguishment of convertible notes of \$9.7 million arising from the repurchase of \$115.0 million in aggregate principal amount of our 4.25% Convertible Senior Notes (the “2020 Notes”) in the first quarter; non-cash impairment charges totaling \$7.9 million, primarily on our investments in Securrency, Inc.; a non-cash charge of \$1.4 million arising from the release of tax-related indemnification assets upon the expiration of the statute of limitations (an equal and offsetting benefit was recognized in income tax expense); and losses on our financial instruments owned and investments of \$0.7 million. Gains and losses also generally arise from the sale of gold earned on management fees paid by our physically-backed gold ETPs, foreign exchange fluctuations and other miscellaneous items.
- Our effective income tax rate for 2023 was 13.8%, resulting in income tax expense of \$16.5 million. The effective tax rate differs from the federal statutory rate of 21.0% primarily due to a non-taxable gain on revaluation/termination of deferred consideration, a reduction in unrecognized tax benefits associated with the release of the tax-related indemnification asset described above and a lower tax rate on foreign earnings. These items were partly offset by a non-deductible loss on extinguishment of the 2020 Notes during the first quarter of 2023, an increase in the deferred tax asset valuation allowance on losses recognized on our investments and non-deductible executive compensation.

(1) See "Non-GAAP Financial Measurements."

(2) Earnings/(loss) per share ("EPS") is calculated pursuant to the two-class method as it results in a lower EPS amount as compared to the treasury stock method. In addition, the three months and year ended December 31, 2023 includes a gain of \$7,966 recognized upon the repurchase of our Series C non-voting preferred shares convertible into 13.1 million shares of common stock from GBH, which is excluded from net income, but required to be added to net income to arrive at income available to common stockholders in the calculation of EPS. This gain is excluded from our EPS when computed on a non-GAAP basis.

NON-GAAP FINANCIAL MEASUREMENTS

In an effort to provide additional information regarding our results as determined by GAAP, we also disclose certain non-GAAP information which we believe provides useful and meaningful information. Our management reviews these non-GAAP financial measurements when evaluating our financial performance and results of operations; therefore, we believe it is useful to provide information with respect to these non-GAAP measurements so as to share this perspective of management. Non-GAAP measurements do not have any standardized meaning, do not replace nor are superior to GAAP financial measurements and are unlikely to be comparable to similar measures presented by other companies. These non-GAAP financial measurements should be considered in the context with our GAAP results. The non-GAAP financial measurements contained in this press release include:

Adjusted Operating Income, Operating Expenses, Income Before Income Taxes, Income Tax Expense, Net Income and Diluted Earnings per Share

We disclose adjusted operating income, operating expenses, income before income taxes, income tax expense, net income and diluted earnings per share as non-GAAP financial measurements in order to report our results exclusive of items that are non-recurring or not core to our operating business. We believe presenting these non-GAAP financial measurements provides investors with a consistent way to analyze our performance. These non-GAAP financial measurements exclude the following:

Gains or losses on financial instruments owned: We account for our financial instruments owned as trading securities, which requires these instruments to be measured at fair value with gains and losses reported in net income. We exclude these items when calculating our non-GAAP financial measurements as the gains and losses introduce volatility in earnings and are not core to our operating business.

Tax windfalls and shortfalls upon vesting and exercise of stock-based compensation awards: GAAP requires the recognition of tax windfalls and shortfalls within income tax expense. These items arise upon the vesting and exercise of stock-based compensation awards and the magnitude is directly correlated to the number of awards vesting/exercised as well as the difference between the price of our stock on the date the award was granted and the date the award vested or was exercised. We exclude these items when calculating our non-GAAP financial measurements as they introduce volatility in earnings and are not core to our operating business.

Imputed interest on our payable to the Gold Bullion Holdings (Jersey) Limited (“GBH”): During the fourth quarter of 2023, we repurchased our Series C Non-Voting Convertible Preferred Stock which were convertible into 13.1 million shares of WisdomTree common stock, from GBH, a subsidiary of the World Gold Council, for aggregate cash consideration of approximately \$84.4 million. Under the terms of the transaction, we paid GBH \$40.0 million on the closing date, with the remainder of the purchase price payable in equal annual installments on the first, second and third anniversaries of the closing date, with no requirement to pay interest. Under US GAAP, the obligation is recorded at its present value utilizing a market rate of interest on the closing date of 7.0% and the corresponding discount is amortized as interest expense pursuant to the effective interest method of accounting over the life of the obligation. We exclude this item when calculating our non-GAAP financial measurements as recognition of interest expense is non-cash and contrary to the stated terms of our obligation.

Other items: Unrealized gains or losses on the revaluation/termination of deferred consideration—gold payments, which we terminated in the second quarter of 2023, loss on extinguishment of our convertible notes, impairments, remeasurement of contingent consideration payable to us from the sale of our former Canadian ETF business, unrealized gains and losses recognized on our investments, changes in deferred tax asset valuation allowance, expenses incurred in response to an activist campaign and litigation expenses associated with certain provisions of our Stockholder Rights Agreement dated as of March 17, 2023, as amended, with Continental Stock Transfer & Trust Company, as Rights Agent, are excluded when calculating our non-GAAP financial measurements.

Adjusted Effective Income Tax Rate

We disclose our adjusted effective income tax rate as a non-GAAP financial measurement in order to report our effective income tax rate exclusive of items that are non-recurring or not core to our operating business. We believe reporting our adjusted effective income tax rate provides investors with a consistent way to analyze our income taxes. Our adjusted effective income tax rate is calculated by dividing adjusted income tax expense by adjusted income before income taxes. See above for information regarding the items that are excluded.

Gross Margin and Gross Margin Percentage

We disclose our gross margin and gross margin percentage as non-GAAP financial measurements because we believe they provide investors with a consistent way to analyze the amount we retain after paying third-party service providers to operate our ETPs. These measures also assist us in analyzing the profitability of our products. We define gross margin as total operating revenues less fund management and administration expenses. Gross margin percentage is calculated as gross margin divided by total operating revenues.

In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other things, the risks described below. If one or more of these or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this press release completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this press release may include statements about:

- anticipated trends, conditions and investor sentiment in the global markets and ETPs;
- anticipated levels of inflows into and outflows out of our ETPs;
- our ability to deliver favorable rates of return to investors;
- competition in our business;
- whether we will experience future growth;
- our ability to develop new products and services and their potential for success;
- our ability to maintain current vendors or find new vendors to provide services to us at favorable costs;
- our ability to successfully implement our strategy relating to digital assets and blockchain-enabled financial services, including WisdomTree Prime™, and achieve its objectives;
- our ability to successfully operate and expand our business in non-U.S. markets;
- the effect of laws and regulations that apply to our business; and
- actions of activist stockholders.

Our business is subject to many risks and uncertainties, including without limitation:

- declining prices of securities, gold and other precious metals and other commodities and changes in interest rates and general market conditions can adversely affect our business by reducing the market value of the assets we manage or causing WisdomTree ETP investors to sell their fund shares and trigger redemptions;

- fluctuations in the amount and mix of our AUM, whether caused by disruptions in the financial markets or otherwise, including but not limited to a pandemic or war conflict, may negatively impact revenues and operating margins, and may impede our ability to refinance our debt upon maturity or increase the cost of borrowing upon a refinancing;
- competitive pressures could reduce revenues and profit margins;
- we derive a substantial portion of our revenues from a limited number of products, and as a result, our operating results are particularly exposed to investor sentiment toward investing in the products' strategies and our ability to maintain the AUM of these products, as well as the performance of these products and market-specific and political and economic risk;
- a significant portion of our AUM is held in products with exposure to U.S. and international developed markets, and we therefore have exposure to domestic and foreign market conditions and are subject to currency exchange rate risks;
- withdrawals or broad changes in investments in our ETPs by investors with significant positions may negatively impact revenues and operating margins;
- we face increased operational, regulatory, financial and other risks as a result of conducting our business internationally;
- many of our ETPs have a limited track record, and poor investment performance could cause our revenues to decline;
- we depend on third parties to provide many critical services to operate our business and our ETPs. The failure of key vendors to adequately provide such services could materially affect our operating business and harm WisdomTree ETP investors; and
- actions of activist stockholders against us, which have been costly and may be disruptive and cause uncertainty about the strategic direction of our business.

Other factors, such as general economic conditions, including currency exchange rate fluctuations, also may have an effect on the results of our operations. For a more complete description of the risks noted above and other risks that could cause our actual results to differ from our current expectations, see "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2022.

The forward-looking statements in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this press release.
